SUMMARY: Senior Product Designer with 10+ years building products that make complex things feel effortless. At Adjust, I cut enterprise churn from 27% to 14% through research-driven redesign. At alphin, I reduced setup time 95% and shipped the first AI feature, cutting task completion from 15 minutes to 3. Three-time founding designer; currently shipping Elternpop (150+ users), Saga (AI agent FTUE), and Mari (4-agent planning system). I design in Figma, build in code, and own the full loop from user problem to shipped feature using AI-native tools. Outcomes-focused: every project has a metric.

EMPLOYMENT HISTORY

Aug 2026 – Present **Senior Product Designer**, C2B&B2B, **Rebuy** · Marketing automation platform for local businesses

• Redesigning the C2B sell flow as it moves off the legacy system, researching user needs across all CE categories to define a flow that works for each one.
• Created team artifacts that document my research and design approach, and set up A/B tests so design decisions are validated with data before full build.

May 2025 – July 2026 **Freelance Product Designer,** AI Product Design

• Talonic (AI Data Platform): Built a design system with 40 components, empowering a 4-person engineering team.
• Elternpop Designed and launched an end-to-end product in 4 weeks, reaching 150+ users

Oct 2022 – Apr 2025 **Senior Product Designer**, Growth & Activation, **Alphin** · Marketing automation platform for local businesses

• Rebuilt end-to-end onboarding, reducing setup time from 4 hours to 10 minutes (95%) and **cutting early-stage churn**. The redesign was driven by one insight: show users value before asking for setup.
• Shipped the platform's first AI feature, a review response tool for restaurant owners, cutting task completion from 15 minutes to 3 and increasing acquisition by 4%. Defined new UX patterns for AI-assisted content creation used by thousands of users.
• Worked directly with engineering from Figma through implementation; all production UI shipped pixel-accurate to spec.

Aug 2021 – Sep 2022 **Senior Product Designer**, Growth & Acquisition, **Adjust** · Mobile marketing analytics · 10,000 MAU
Redesigned a technically complex B2B product using progressive disclosure, cutting churn from 27% to 14%. Validated through user testing.
• Led international user research across 5 markets (Brazil, US, Japan, Germany); insights directly drove the structural redesign that cut churn from 27% to 14% and reduced completion time from 2-3 hours to 20 minutes.

Oct 2020 - Jul 2021 Senior UX/UI Designer **TriNet** · HR & payroll platform for SMBs
Redesigned benefits and payroll interface for 4,500 users, improving satisfaction scores by 28%.
• Built and maintained a design system across 10 product modules, creating consistency standards adopted across the full platform and enabling faster feature delivery across teams.

May 2019 – Oct 2019 Founding Designer, **Estylar** · AI fashion tech startup
Designed an AI-powered size recommendation feature using photo capture, reducing return rates from 32% to 21%. Sole designer from research through design system.

Nov 2019 – Oct 2020 Product Designer, eCommerce & Marketplace, **Agrofy** · Agricultural B2B marketplace, LATAM
Designed the first digital checkout for high-value machinery transactions, achieving the platform's first successful online sale in Brazil.

Nov 2015 – Dec 2018 Founder Designer/UX Design Lead, **Bakián** · Performance marketing & design agency
Led a team of 5, establishing UX processes and design systems across multiple client products. Ran 200+ client kickoffs.

SKILLS

Design: UX Design, UI Design, Product Design, Interaction Design, User Research, Usability Testing, Information Architecture, Design Systems, Accessibility (a11y), Prototyping
AI & Build: Claude Code, Figma MCP, Cursor, AI-Assisted Design Workflows, flow design for AI agents, rapid Prototyping. React + TypeScript.
Domain: B2B SaaS, Growth & Activation, Onboarding Design, AI Product Design, Mobile, eCommerce
